# ...WITH A SET OF GUIDING PRINCIPLES.

## CONVENIENCE

Filmmaking can be fast and unpredictable. As a boutique company, we pride ourselves on our ability to "roll with the punches," quickly adapting to whatever the moment calls for. Think of us like a flexible, agile, S.W.A.T. team for your production.

## CUSTOMER SERVICE

Stargate is not a factory line of faceless artists. Our communicative and personable team serves as your partner in the trenches. You've trusted us with your project, and we take that seriously. At Stargate, we always go the extra mile.

## COST-EFFECTIVE

In the increasingly crowded production and visual effects markets, we leverage global incentives, labor costs, competitive pricing, and in-house creative solutions to help our clients save money without compromising quality.

## CUSTOMIZABLE

Of course, every project is unique and should be treated as such. After assessing a production's specific needs, we assist in generating a specialized game plan that fits the goals of your creative, budget, and schedule.

# OUR SERVICES

# VISUAL EFFECTS

For over 30 years, Stargate Studios has generated industry-leading visual effects for countless films, television series, commercials, and video games.

Our diverse team of international, award-winning artists are adept at designing and executing anything that a story demands - from *The Walking Dead's* otherworldly zombies to *Orville's* glamorous fleet. From the futuristic streets of a *Star Wars* planet, to the dusty battleground of the Roman colosseum - Stargate Studios can do it all.

# VIRTUAL PRODUCTION

Answering the call for customizable, efficient, and cost-effective virtual production, Stargate Studios provides our clients with mobile LED walls that arrive with ease to productions' stages or shooting locations. Combining state-of-the-art LED panels with our proprietary software and hardware package (ThruView™), enables filmmakers to achieve any scope of virtual production quickly and seamlessly.

Our experienced team of Virtual Production Supervisors, Playback Operators, Network Specialists, Lighting Technicians, and Producers work closely with the filmmaking team throughout the process to generate unparalleled, in-camera visual effects.

# PLATES & CONTENT

Virtual production is only as impactful as the content that plays on its LED screens. The team at Stargate Studios has traveled the world photographing unique, custom backgrounds to fit the needs of our projects.

Whether it's thousand-year-old Japanese shrines or the beaches of Puerto Rico, the highways of LA or the asteroid belts of Mars, Stargate combines decades of cinematography experience, revolutionary new tech, and the skills of 3D artists to generate any environment production may require. Our stock plate library, the “Virtual Backlot,” already contains thousands of clips ready for use.

# STAGE & PRODUCTION

In addition to traditional VFX and cutting-edge virtual production, Stargate Studios also provides a comprehensive Production Services department and insert shooting stage. With “action”-ready cameras and lenses, grip and lighting packages, green screens, turntables and LED panels, Stargate Studios uses a wide range of tools to support filmmakers on location or at our stage in South Pasadena.

Routinely pushing the boundaries of film technology, our studio is also designed to be an R&D sandbox for our projects’ creative teams to experiment and play. Our stage and hardware are accessible during pre-production for any camera, effects, or lighting tests that may be needed.

Films that recently utilized our stage and production team include:

**AfrAld**  
**Vengeance**  
**Insidious 5: The Red Door**

**M3gan**  
**House of Spoils**  
**Happytime Murders**

**Drop**  
**Night Swim**  
**The Black Phone**
